ASSEMBLY INSTRUCTION

Arne Chair

Swivel Base · Without Stool

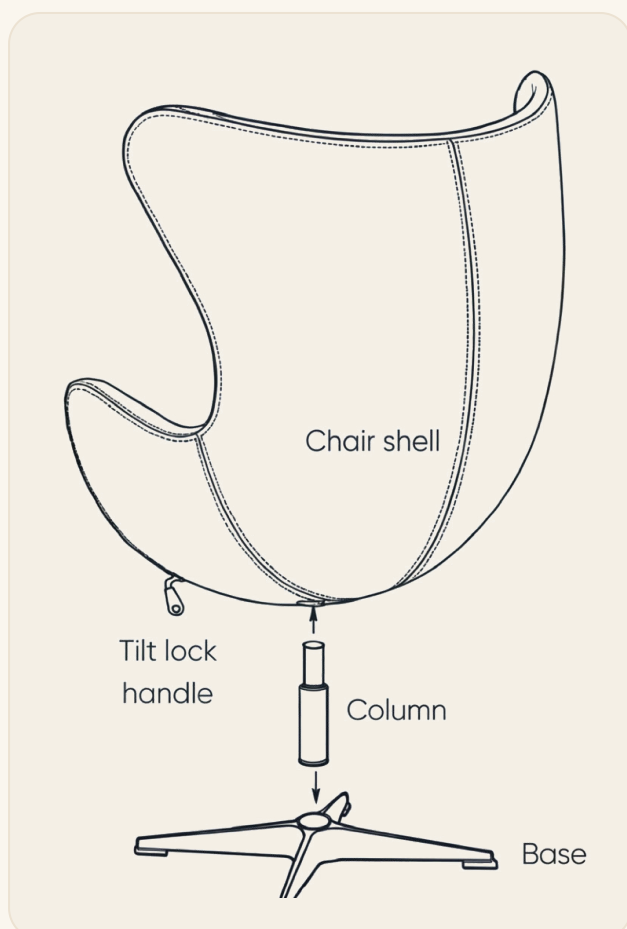

Welcome Guide

www.sohnne.com

Assembly

Your Arne Chair needs only minimal assembly — no tools required. Place the column onto the base, then lower the chair shell onto the column.

1 Stand the **column** upright on the **base** so it seats fully into the centre.

2 Lower the **chair shell** onto the column until it rests firmly in place.

Tilt lock handle

The chair has two positions — locked and tilting. Pull the handle **outward** to let it tilt; push it **inward** to lock it upright and firm. Don't adjust the handle while the chair is occupied.

NOTES

The tilt mechanism is tightened at the factory for safety and may feel stiff at first — it eases with use.

The column is a fixed height and does not adjust.
